REGULATIONS

For the expeditious collecting, booming, storing, holding, protecting, sorting and delivery of saw-logs, poles, pulp, wood, ties, wood timber, lumber, and all sorts of timber and lumber products, by the Shuswap and Thompson Rivers Boom Company, at its Boom and Works on the North Thompson River, in the Province of British Columbia:—

Section 1. Whenever hereinafter used, the words "logs and lumber" shall include saw-logs, poles, pulp, wood, ties, wood timber, lumber, and all other wood goods as well as square or flatted timber.

Section 2. The Company shall, at its said boom and assorting works in the North Thompson River, intercept, stop and take exclusive possession of all logs and lumber coming down the said river loose, or driven therein, and shall, as expeditiously as possible and without unnecessary delay, assort the same according to the respective marks, and deliver the same at or near the foot of said boom, in pockets assigned to the respective owners of such logs or lumber, or to such person or persons as such owners may designate, excepting that when it is the intention to pass any logs or lumber outside the Company's works, the Company shall be notified of such intention twenty-four hours before such logs and lumber reach the works of the Company. Should the owner or owners of such logs and lumber fail or neglect to give such notice, then the logs and lumber shall be chargeable with the authorised tolls thereon, unless specially exempted by the Governor in Council.

And the Company shall, at all times, provide in a place or places to be indicated by the Resident Engineer of the Department of Public Works, and of such width as may be determined by him, an opening or openings sufficient for the safe passage of crafts of all kinds and rafts or logs and lumber, either loose or in booms, and must always provide for the free navigation of the river as required by Stat. Can., 7-8 Edward, Cap. 155.

Section 3. The Company shall have the right to allot space for assorting, pocketing, rafting and mooring all logs and lumber coming into its boom and works, of determining the quantities thereof that may be allowed to accumulate in the boom of the Company, and shall, subject to appeal to a Court of competent jurisdiction, have the power of awarding the amount that may be due for damages to the works, through the mismanagement of the owners or persons in charge of logs or lumber, or by reason of the works being overcrowded with logs, or any wilful or malicious injury to the works caused by the owners of logs or lumber or by their employees. And the Company may detain and hold in pocket-booms, outside the sorting gap or gaps, the logs or lumber causing such damage, or belonging to the persons who, or whose employees caused such damage, until the amount in respect of such damage be paid, of selling the logs and lumber by public auction as hereinafter provided, and of recovering in any Court of competent jurisdiction such damages, whenever the owner of the logs, or persons in charge thereof, refuse or neglect to pay the same; should such claim for damages be disputed, the Company shall release all such logs and lumber upon the owner furnishing bonds to the satisfaction of the Company, or of the County Judge, should the Company refuse security tendered, for the due payment of such claim when the same has been established by agreement or Court of competent jurisdiction. And the Company shall pass and sort out into pocket-booms all logs and lumber coming into the works, in the order in which they arrive, and shall not detain any of the same within the main works of the Company, unless requested to do so, in writing, by the owner or person in charge of such logs or lumber.

Section 4. The Company shall provide a separate pocket for the logs and lumber of each separate owner, according to the respective marks, in such manner that said logs and lumber, as the same may come down the river, may be taken possession of and removed by each such owner without hindrance or

inconvenience, after the same have passed through the Company's boom and the tolls and other charges have been paid or secured to the Company: Provided, however, that on the demand of the Company, each owner shall, within twenty-four hours after such demand in writing shall have been served upon him or his agent, provide his own booms, at the place to be indicated by the Company, into which his logs and lumber may be turned and delivered from the said pocket-booms, and when the Company has to furnish such booms, because the owner had failed to provide them after due notice as aforesaid, the Company may, in addition to the ordinary tolls and dues, levy a penalty of ten dollars for each day after the expiration of forty-eight hours from the time such notice to the owner or his agent has been served upon him, until and including the day upon which the logs and lumber are removed from the Company's pocket or storage booms.

Section 5. The owner of any logs and lumber proposed to be driven down the North Thompson River, through the Company's boom and works, shall give notice, in writing, ten clear days at least before the period when such owner reasonably expects that his logs and lumber may arrive at the Company's boom, and specifying the approximate number of logs and lumber the same may be, and whether such logs and lumber shall be driven loose or bagged within a boom, and in default of such notice the Company may be relieved of any obligation or liability under these regulations for delay or unreadiness to receive, assort, or deal with any such logs and lumber, and from any damage whatever, consequent upon such delay or unreadiness: Provided, always, that any such owner who has made default in giving of such notice, shall be and remain liable to the Company for all costs, damages and expenses of any kind borne, suffered, or indirectly incurred by the Company through the interference by the logs and lumber of such owner with the logs and lumber of other owners in the Company's boom or works, or passage through the same, or obstruction to navigation caused by the logs and lumber of such owner; and the Company shall have a lien against such logs and lumber for all such costs, damages and expenses, which lien shall be enforced in the manner indicated in Section 3 of these regulations.

But this clause shall have no force or effect if it can be satisfactorily shown that the logs and lumber came, notwithstanding ordinary precautions, through unexpected high water or other unforeseen circumstances beyond the control of the owner.

Section 6. The Company shall employ all the men necessary to assort and deliver such logs as soon as practicable after they arrive within the works of the Company, and shall use all reasonable diligence to effect such delivery promptly; and the number of men to be so employed shall be within the discretion of the Company: Provided, however, that upon the written complaint of one or more owners of logs and lumber, addressed to the Resident Engineer of the Department of Public Works, that the number of men so employed was not sufficient to pass and sort the logs and lumber expeditiously, the said Resident Engineer shall notify the Company to employ at once such an additional number of men and for such time as he may judge necessary to perform the work to his satisfaction, and shall the Company refuse to comply with his request, he, the said Resident Engineer, or his deputy, is hereby authorised to employ the necessary number of men at the cost and charges of the Company, and report all proceedings, with the evidence, to the Department of Public Works.

Section 7. The Company shall not be liable for any delay in assorting or delivering logs or lumber caused by unusually high or unusually low water, or by any unusual press or jam of logs and lumber, or floodweed within its boom or at its works, of any of which causes the Resident Engineer of the Department of Public Works shall be the judge, or by the act of God; but the Company shall use all reasonable effort to shorten the period of such delay, and in no case shall the Company be liable for damages or loss to the owners of any logs and lumber arising out of or in connection with any such cause of delay, when such cause of delay has

been certified by the Resident Engineer as beyond the reasonable control of the Company.

Section 8. Every description of logs and lumber (excepting what may be exempted by the Governor in Council) which passes through the works of the Company shall be liable for the payment of damages and dues, including the tolls imposed under any authorised Tariff or Tolls, and the Company may seize and detain, in the manner provided in section 3 of these Regulations, any parcel of logs and lumber until payment of such damages, dues and tolls is made, or until the owner or person in charge shall have given satisfactory security for the payment thereof, within thirty days after the same shall have been declared to have been incurred or demanded, by personal service established by declaration, or by registered letter; and the Company shall have a first lien thereon; and in default of such payment being made within the term of thirty days as aforesaid, the Company may proceed to sell the same by public auction, giving at least six weeks notice of the day of the intended sale by auction, by the insertion of a sale notice in some newspaper published in the Town of Kamloops, B. C., and by posting up the notice for a period of four weeks in a public and conspicuous place at or near the Company's works, where any such logs and lumber may be lying and held, and if the costs attendant upon such sale, as well as all other costs, dues and damages imposed or awarded cannot be realised from the logs and lumber so seized and sold, the same shall be recoverable from the owners thereof by action taken in any Court of competent jurisdiction.

Section 9. All dues and tolls imposed, or to be imposed, upon and collected against any logs and timber passing through the Company's works, according to any duly authorised tariff of tolls, shall be payable when delivered into pocket-booms, as prescribed in sections 3 and 4 of these Regulations, and when demanded by personal service or registered letter, and before shipment of any part of such logs or lumber, or further removal of the same, and no person shall remove or take possession of or assume control over said logs or lumber, or any part thereof, until such dues and tolls have been paid, and it shall be lawful for the Company, or its duly authorised agent, to enter upon, seize and detain at the risk, costs and charges of the owner or owners thereof, any parcel of logs and lumber which shall have been moved away from the Company's works, whether for shipment, manufacture or otherwise, upon which any dues, tolls or damages awarded may not have been paid or secured to the satisfaction of the Company; but this clause shall not in any way apply to logs and lumber exempted by the Governor in Council. And when the security tendered for such tolls, dues and charges shall be refused by the Company, appeal may be made to the County Judge, whose decision shall be binding on the Company.

Section 10. The Company shall set apart a pocket in storage boom for all logs and lumber coming into their works, which have not been stamped or marked in such a manner as to be identified by the owners. And the same shall be sold by public auction, in such manner and on a date to be approved by the Minister of Public Works, and notice of such sale shall be published for at least thirty days before the date fixed therefor in at least one newspaper in the City of Kamloops, and conspicuous copies of such notice shall be posted up at the works of the Company, and at or as near as possible to the place where such logs and lumber are stored and are to be sold. And the proceeds of such sale, after the just dues and charges owing to the Company, and all costs of sale, including advertising, are deducted, shall be credited, pro rata, to the accounts of all the owners of logs and lumber which passed through the works of the Company during the then current season.

Section 11. When any quantity of logs or lumber which have been exempted by the Governor in Council from the payment of tolls shall accumulate in the works of the Company to the number of 100 pieces, it shall be the duty of the owner thereof to furnish, at his own expense and charges, such pocket-booms and appliances as may be necessary, at the place indicated by the Company, within

forty-eight hours after the same has been demanded, in writing, by the Company, and shall furnish at least one man for each 1,000 pieces, to assist the Company in removing the same from the works of the Company to such pocket-booms. Should the owner or owners of such exempted logs and lumber not comply with the demand of the Company in this regard, then the Company may supply such booms and appliances as well as such labour as may be necessary, and may hold and detain such logs and lumber until the cost of supplying all such, with ten per cent, thereon added, shall be paid. In the event of dispute as to the amount so charged, the logs and timber may be released upon furnishing security therefor, in the manner prescribed for securing tolls and dues in section 9 of these Regulations.

Section 12. The Company shall keep a strict and accurate daily account of all the logs and lumber passing through its works, which shall be entered in a book to be kept for that purpose, showing the number of pieces of each kind of logs and lumber belonging to each owner, that passed through the works each day, and the Company shall produce, when required by any owner or person in charge, and permit full inspection of the same by such owner or person in charge, the book containing the daily record herein required as well as all original tally boards, memoranda, books, or other record from which the entries in the said book of daily record have been made; and all such tally boards, memoranda, books or other records shall be carefully preserved by the Company so long and until all disputes as to the quantities that have passed through its works are finally settled.

Section 13. The costs of all applications to a County Judge, when prescribed by these Regulations, shall always go with his decision.

Section 14. Any owner or owners of logs and lumber, whose operations may be delayed by reason of the Company's works being inefficient, or any other cause attributable to the Company, its agents or employees, may lodge his complaint in writing with the Resident Engineer of the Department of Public Works, and he, or in his absence the person authorised by him, may take all necessary measures to remedy the injury at the expense of the Company, and shall make a full report of all action under this section to the Department of Public Works.

Section 15. The Company may demand from the owner of any timber intended to be passed through any portion of the works of the Company, or from the person in charge of the same, a detailed specification of each kind of timber, and of the destination of the same, and if no such specification is given when required, or a false specification is given, the whole of such timber, or such part of it as has been omitted by the false specification, shall be liable to double toll, and may also demand a return, under oath or statutory declaration, of the actual measurement at the mill of all logs and poles which have passed through their works, under a like penalty. And such specification shall show the number of pieces of each diameter of all logs and poles under 17 feet long; and the diameter at both ends of all logs and poles over 17 feet long. But the Company may only charge tolls on the actual number of pieces counted out at the sorting gaps and jacks.
